Artist Biography/Statement

I was born at West La Loche. After my dad died in 1958 we moved to La Loche, from La Loche we moved out to Clearwater. I started beading when I was about nine years old. I made a bracelet. I sewed beads on canvas for my bracelet. I was about ten when I made my first slippers. When my kids were small, I used to make them mukluks and mitts and I am still making them today.

Artist Biography/Statement

I was born and raised in West La Loche. It was a little town across the lake, before the current town site was built. I was still very small when I started beading. I had a candle light under the table, that's how I used to bead.

I made my first moccasin for myself when I was nine years old. I wear it at Christmas, but it probably wasn't the best.

When I was small, I used to do embroidery, bead work, everything. Today, I still do all that kind of stuff. Right

now I am making mitts for someone in Alberta, who ordered it. If I make gloves, someone buys them right away. I also make mukluks and bank cards.

Sarazine's grandson remembers vividly how his grandmother went into the bush all by herself to hang up dry fish and scrape moose hides.

Artist Biography/Statement

Hi, my name is Thomas Montgrand, born and raised in La Loche, SK. Since a very young age, I've been interested in arts and crafts. I started by wildlilens wood and later on got into pencil sketching and acrylic painting. I also do lawn ornaments such as bears, windmills, wells but today I mostly concentrate on my moose antler carvings, I do animals, scenery, sculptures and lighter cases. I sell my work to interested persons of mostly anywhere; I also sell my work internationally as in China, Thailand, Australia and USA.

All of the carvings that I carve are of moose antlers of any size. Carvings may be of wild animals/sculptures, sceneries and also carve out lighter cases with a picture of any sort.
