Team North Hockey and Curling trying to find their Groove!

The Team North has assembled a hockey team from all over the North and they have had a short time to get to play with each other. The team has lost its first 3 games of the competition and look to win on its final game to stay in medal contention.

Team North has been known for its hard hitting style but have had a hard time to put the puck into the net. The

curling team has also faired very tough games and have been competitive in many of the games. They currently stand 0-3 but look to rebound on Day 4.

We have been in games but haven't gotten many bounces" Greg Hatch
